- Revolutionary RiDE® system for intuitive control
- Huge and practical storage with 114 litre capacity
- Convenient self-draining footwells
- Excellent new ergonomic driving position
- Adventurous styling, colour and graphics
- Easy re-boarding with extended re-mount platform
- Tow hook and large integral mirrors
- Large, watertight glovebox and separate phone storage

Boost up the excitement.

Whether you're piercing through the waves, or gently cruising across the bay, the latest VX Cruiser HO is the very top of the VX range with the most powerful engine of the family. A fresh colour, enhanced graphics and details streamline the sporty silhouette. 4-cylinders and 1.9 litres of High Output, for the purest excitement, are combined with exceptional cruising luxury for those for whom compromise is not an option.

Versatility tops the charts of the many factors that make the VX models our most sought-after personal watercraft. An impressive performance repertoire that takes you from the adrenaline-pumping excitement of water sports to the relaxing world of waterway cruising inspires enduring loyalty.

The latest VX Cruiser HO is a stand-out premium watercraft, delivering a potent blend of high-performance excitement, precision handling, riding comfort and outright style. Now with a lightweight NanoXcel2® deck, the VX Cruiser HO is a sure bet for the ultimate cruising experience.

RiDE® system (Reverse with Intuitive Deceleration Electronics)

The revolutionary RiDE® system transforms your riding pleasure, bringing a new feeling of confidence to every rider at every level. Simply pull the lever on the right hand-grip to move forward and accelerate, and pull the lever on the left grip to slow down or reverse. With the bonus of Reverse Traction Control, it really is that simple.

4.3 inch multi-function colour display with fast access

Among its many hallmarks, the easy-to-read Connex® display helps you control and monitor all the systems on board, using the fast-access buttons below the handlebar. Top speed and acceleration limits can also be entered from here, along with the PIN code, activated learning and security settings. We put the latest technology to work for you.

Yamaha Music integrated audio system

The integrated factory-installed audio created by Yamaha Music means speakers are bigger than previous models and come with a sleek design and integrated speaker boxes. With the new audio system, the sound quality is also elevated to new heights. As you speed up or slow down, the volume, treble, and bass automatically adjust, adapting to the surrounding sonic environment, and enhancing listening pleasure.

Easier re-boarding with redesigned steps and more grips

The latest VX Cruiser HO will appeal to water sports fans, with its large dual mirrors, an extended rear platform with an enhanced, more comfortable re-boarding step, and a strong tow hook. The stylish, comfortable, slip-resistant Hydro-Turf mats are another bonus safety feature to look forward to after going for a swim. Two pop-up cleats make tying up a breeze too.

High Output, DOHC, 16V, 1,898cc engine

The VX Cruiser HO is powered by our newest innovative High Output, a 4-cylinder, 1,898 cc WaveRunner engine. This remarkable machine packs a real punch and offers extraordinary acceleration and great top-end power yet with economy and comfort features integrated.

Extensive and practical storage facilities

The latest VX Cruiser HO has ample amounts of storage space so that you can take everything you might need along with you. Not only do we ensure plenty of space under-seat and bow storage, but in addition, the very large, watertight glove box has blue LED accent lighting, USB and 12V outlets to secure and charge your telephone.
