

Ultimate performance.

Up the adrenaline and dial into your inner racer with the impressive GP SVHO in racy red with stylish black accents, a flagship machine that cuts the waves like a knife. The supercharged ultra-powerful 4-cylinder SVHO engine, lightweight hull and slim design deliver ultimate power and cornering precision, redefining “extreme”.

Gain ultimate confidence and control as you fly through the waves. Our unique, revolutionary RiDE® system, lightweight NanoXcel2® hull, exclusive electronic control systems, and the largest-in-the-industry 1.8 litre supercharged engine deliver cutting-edge technology and engineering throughout.

Fresh colour and graphics, attention to detail, advanced design and sheer build quality mean that you have all the adventure with zero compromises. A powerful blend of outstanding performance and adrenaline-pumping DNA.

- Auto-Trim function with launch and cornering control
- Supercharged SVHO 1812cc engine with EFI
- Multi-function 4.3-inch colour display
- Extended re-mount platform with Hydro-Turf mats
- Narrower seat and handlebars
- Robust and lightweight NanoXcel2 hull and body
- Lower and more central centre of gravity for faster cornering
- Race-inspired pump, impeller and intake grate
- Electric trim and reverse with traction control
- Tow hook and deep, soft-touch re-boarding step
- Twin multi-mount connection points (for sat nav or camera)

Ultimate performance.

Turn your adrenaline up to 11 with the impressive racing-inspired GP SVHO in racy red with stylish black accents. Go beyond extreme with a supercharged ultra-powerful 4-cylinder SVHO engine. Cut through the waves in total confidence thanks to the lightweight hull, slim design and cornering precision, delivering excitement without compromise.

Feel the joy and exhilaration of an instant blast of flagship-level power. The GP SVHO is a class-leading model featuring an array of engineering innovations that make riding it a straight shot in the arm of pure excitement. The Yamaha Motor signature features the lightweight NanoXcel2® hull, deck-paired with the revolutionary RiDE® control system for premium performance.

We did the detail, so you get all the thrills with superb levels of control. A race-inspired top-loader sports grate and ride plate enhance handling, cornering, and rough water hook-up. The lower centre point of gravity, improved seating ergonomics, and handlebar design deliver an even greater rider experience. Plus the optional Yamaha Music integrated audio system for ultimate sound clarity and quality at any speed.

Race-inspired ergonomics

The balance and stability of the GP SVHO have been enhanced by lowering and centralising the centre of gravity along with the adoption of a narrower design for both the seat and the fully adjustable, race-design handlebar. Combined with the ergonomic sitting position and deeper footwells, the result is an amazing level of rider control.

Auto-trim function

This exclusive, industry-first system offers a fully automatic trim function, which operates independently of the efficient electronic trim control on the handlebar. When engaged, Cornering Control automatically shifts the trim down when decelerating for sharp cornering, and Launch Control shifts the trim down to prevent bow rise when accelerating quickly.

4.30-inch multi-function colour display with fast access

Among its many hallmarks, the easy-to-read Connex® display helps you control and monitor all the systems on board, using the fast-access buttons below the handlebar. Top speed and acceleration limits can also be entered from here, along with the PIN code, activated learning and security settings. We put the latest technology to work for you.

Race-inspired pump design

Improving both acceleration and handling, the pump, impeller and intake grate have been introduced as a result of the excellence achieved in racing. The extra grip it gives on the water enhances responsive and accurate handling in all conditions.

Supercharged, DOHC, 16V, 1,812cc engine

The 4-cylinder DOHC 1.8 litre SVHO engine is the largest displacement in the industry, yet thanks to our continuous programme of innovation and product improvement, it is extremely compact. The result is astonishing power, acceleration and huge torque, along with clean efficiency and economy.

Extended rear platform and towing hook

The GP SVHO will appeal to water sports fans as well as speed enthusiasts, with its comfortable three-person seat, large integral mirrors, an extended rear platform with a large, soft-touch re-boarding step, and its strong, practical tow hook. Also, the comfortable, slip-resistant Hydro-Turf mats are a pleasure to step onto after swimming.

Engine

Engine type	Supercharged 4-cylinder, 4-stroke, Super Vortex High Output Yamaha Marine Engine
Displacement	1812 cc
Fuel	Unleaded premium Gasoline
Fuel supply system	Electronic Fuel Injection
Fuel capacity	70 l
Oil capacity	3,7 l

Dimensions

Length	3,35 m
Width	1,24 m
Height	1,3 m
Dry weight	344 kg

Features

Storage Capacity	107,6 l
Rider capacity	1 - 3 people

Engine	
Super Vortex High Output 1,812cc (SVHO)	Yes
