

The perfect partner for everyday explorers.

You don't need a reason to hit the water. The 4hp makes sure of that. It's the reliable friend that's always up for one more run, one more peek around the next bend, one more memory of when you let the good tides roll.

Built with the same meticulous engineering that powers Yamaha's biggest beasts, it's all thrill and no fuss; the kind of control that makes every turn you make feel intentional, even when you didn't mean to!

It's not just about getting from A to B; it's about enjoying every moment in between. Because in the end, boating's not just about the destination, it's about the journey.

- Sleek design

The portable that thinks big.

This is the engine for people who don't overthink it; they just follow the feeling. Quick to start, easy to carry, and effortless to steer, the 4hp turns a day at the water into a masterclass in simplicity. You bring the boat, it brings the vibe.

Whisper-quiet, light on fuel, and heavy on fun, the 4hp feels like freedom at full throttle, minus the noise. Whether you're out solo, ferrying friends, or just escaping the to-do list, this engine makes smooth sailing feel almost unfairly easy.

With modern styling, a comfortable carry handle, and fuel-sipping efficiency, the 4hp blends performance with personality. And when the day's done? The 4hp stows neatly and asks for nothing. Apart from not to be left behind on tomorrow's adventure of course.

Dressed to impress.

Looking this good shouldn't be effortless, but it is. The sleek grey cowling and bold graphics bring a touch of Yamaha attitude to every outing. It's sharp, modern, and made for fun, the perfect match for your next day on the water.

Grab and go!

The compact shape and large, soft-grip handle make it easy to lift, load, and launch. Whether you're strolling to the slipway or hopping between boats, this little engine carries like a dream, because Yamaha knows adventures should start smoothly.

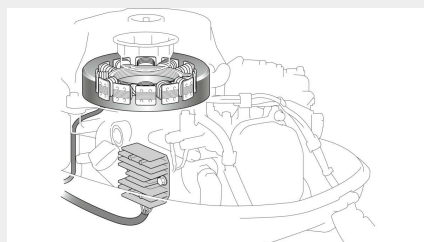

Zero spills, zero stress.

Take it from the car to the dock without a single drop of mess. Yamaha's clever breather system means you can store it on its front or either side; no oil leaks, no worries. Just grab, go, and relax knowing your boat, boot, and deck stay spotless.

Smooth turns, tight spots; you've got this!

Docking, weaving, drifting...whatever the day brings, steering feels effortless with simple friction control and full 90° turns to either side. Adjust your throttle trim to match your pace, and enjoy that steady, balanced ride Yamaha's famous for, even when you're cruising at pace.

Light up the night.

When the sun dips but you're not done, the optional lighting coil keeps the good times glowing. A reliable 12 V 6 A power supply lets you run lights, charge devices, or stay out fishing after dark, because the best stories don't always happen in daylight.

Fuel freedom, built in.

For quick trips, the 1.1 L built-in tank keeps things light and clutter-free, so more room for your tackle box or cooler. Got bigger plans? Just twist the two-way tap and plug in a remote tank to double your range. Simple, smart, and ready for wherever the day takes you.

Dimensions

Overall length	750 mm
Overall width	403 mm
Steering angle	90 degrees each direction
Overall height	S: 1039 mm, L: 1166 mm
Engine transom height	S: 435 mm, L: 562 mm
Dry weight	S: 27 kg, L: 28 kg

Engine

Ignition / advance system	CDI
Engine oil capacity	0.6 L
Compression ratio	8.9 : 1
Alternator	6 A with optional regulator
Lubrication system	Wet sump
Bore x stroke	62.0 × 46.0 mm
Engine type	OHV, 1-cylinder
Displacement	139 cm ³
Fuel induction system	1 carburetor
